

## **Day 1: Tuesday 4th October**

### **SYP 01: *Alex Baldacchino***

#### **ISAM-GEN**

#### **International Society of Addiction Medicine Global Expert Network**

Alex Baldacchino- ISAM's Mandate and Potential to Develop a Global Expert Survey Infrastructure as an ISAM Product

Marc Potenza- World Addiction Medicine Reports 2022: Development of a Global Expert Survey Infrastructure and Longitudinal Survey in Addiction Medicine

Arash Khojasteh Zonoozi Fateme Sadat Abolghasemi - ISAM-GEN Structure and Expert Contact Points: From Individuals to Addiction Societies and Treatment Centers

Preethy Kathiresan, Atul Ambekar- ISAM-GEN Pilot Survey: Global Survey on Treatment Service Provision for Opioid Use Disorder

Hamed Ekhtiari - ISAM-GEN's Future Path: How to Contribute to the Upcoming Surveys?

### **SYP 02: *Sophia Achab***

#### **Restructuring Addiction Treatment Services in Post COVID Era, integrating digital health**

Mirana Michelle Randriambelonoro or Caroline Perrin - Title: The potential of information technologies to facilitate addiction treatment services

Anja Busse - Quality and accessibility of drug use disorder treatment service provision – lessons learnt from the post COVID era

Prof. Dr. Michael P. Schaub - From guided self-help to blended addiction treatment for cannabis and illicit drug use disorders

Dr Susanna Galea-Singer - Enhancing addiction services' interventions utilizing digital platform- Project TMAT 3

Dr Joe Tay - Re-thinking collaborative risk assessment and management in providing virtual addiction care: A state of the art review of the literature.

**SYM 03:** *Lee Chang*

**The Impact of Covid-19 on National Addictions Management Services' care delivery in Singapore**

A/Prof Lee Cheng, - Title: NAMS services during the pandemic

Dr Mevlyn Zhang, Singapore - Title: Pandemic Impacts on Youth and Adolescent behavioural addiction

Ms Bhavinagayatri Thinnagaran - Working with Families thru pandemic

Nora Loh - Shaping the "new normal" into inpatient's new model of care

**SYM 04:** *Cornelis De Jong*

**ISAM TRAINING COMMITTEE : Training Needs in Addiction Medicine: An international perspective in 2013 and 2022**

Gabrielle Welle-Strand - A global survey on Addiction Medicine training in 31 countries

Cornelis A.J. DeJong, - Design of the 2022 ISAM AM-TNA global survey

Roshan Bhad -Procedure for the ISAM AM-TNA global survey

Enjeline Hanafi - The online questionnaire for the ISAM AM-TNA global survey

Shalini Arunogiri - Preliminary results of the ISAM AM-TNA global survey

**SYM 05:** *Christos Kouimtsidis*

**Techniques and Treatments 1**

Seon Young Park - Review of Cognitive Behavioral Therapy Programs on Gaming/Internet Use Disorder: Focusing on CBT Techniques Used.

Therese K Killeen- Mindfulness based relapse prevention adapted to address trauma in women with comorbid PTSD and SUD

Christine Gibson- Somatic Therapies in the Treatment of Trauma Underlying Addictive Behaviors

Prasanthi Nattala- Nurses' perspectives regarding integrated nursing interventions for psychoactive substance use cessation: a mixed methods study from south india.

Tone Pley- Effect of intranasal oxytocin in the treatment of benzodiazepine withdrawal, an ongoing pilot double-blind RCT.

## *SYP 6 - Haong Huy Vu*

### **Research to Practice: Strategies to get the science into the education (addiction studies courses) and to practice**

Translating evidence into practice in addiction medicine: The role and experience of universities in Africa, Dr. Beatrice Kathungu, Regional Coordinator, Africa

Experiences of science to practice: Addiction studies in Thailand higher education Dr. Prapapun Chucharoen, Mahidol University, ICUDDR Regional Coordinator Asia-Pacific

Implementation of Substance Abuse Prevention and Treatment Programs in HEIs: Challenges and Opportunities, Salman Shazad, PhD, Assoc Professor, University of Karachi

University Postgraduate training on addictions at Spain: The experience of the University of Barcelona, Xavier Ferrer, Psy D, Director, and Fran Calvo, Ph. D. Management and direction team, Master on addictions, University of Barcelona

## *SYP7 - Mike Orland*

### **Working during COVID**

Olga Bogolyubova - The Impact of COVID-19 Pandemic on Drug Users in Malta: a Qualitative Analysis

Monique DeBrincat, Ruth Cassar Bonanno, Vanessa Kurz, Rachel Bezzina, Abigail Cortis, Antonella Mizzi - Navigating through uncharted territory; The lived experience of psychotherapeutic professionals working with clients struggling with addiction during a global pandemic.

Zvetlana Cassar- Surviving Addiction: Fostering Resilience and Wellbeing in Substance Users Online During The Pandemic

Mike Orland- Supported remotely: Service Users' experiences of teleservices in community-based addiction treatment during Covid-19

F.Brezan Prolonged dam-take-home in times of covid-19: harm reduction or increase?

## *SYP08: Vemkata Lakshmi Nara Shima*

### **Substance Use Disorders and Behavioral Addictions During the COVID-19 Pandemic: Perspective from early-career addiction medicine professionals**

Venkata Lakshmi Narasimha: Effect of COVID-19 pandemic on alcohol use disorders

Sophia Achab: Gaming disorder in times of pandemic: Building health systems' resilience.

Beatrice Lydia Matanje: Is early detection of alcohol use disorders feasible in a resource constrained health system during the Covid19 pandemic era?: adaptation and validation of Alcohol Use Disorder Identification Test (AUDIT) in Malawi

Laura Orsolini: Italian trends in Problematic Video Gaming Use and Internet pathological

**SYP09:** *Susanna Galea Singer*

**ISAM Education Team Pathways to specialization in addiction medicine/psychiatry in Europe: Challenges & solutions**

Cornelis A.J. De Jong - Pathways to addiction specialization: SWOT analysis.

Gabrielle Welle-Strand - Update of the Full Norwegian Specialty in Addiction Medicine

Anna Maria Vella - The challenges to addiction specialization in Malta

Michal Miovsky - Solutions to addiction specialization

Geert Dom - Specialization in addiction psychiatry in Europe

Carmel Clancy - Pathways for addiction specialization for nurses

**SYP10:** *Mehdi Farokhnia*

**NIG and ISAM Next - Recent advances in the neuroscience of addiction: From circuits to treatments**

Hamed Ekhtiari: Introduction

Serenella Tolomeo: Protracted abstinence in males with an opioid use disorder: Partial recovery of nucleus accumbens function

Parnian Rafei: Cannabis and cognitive impairments: recent evidence and implications of the future-oriented aspects of cognition

Mehdi Farokhnia: Exploring the crosstalk between alcohol use and glucagon-like peptide-1 (GLP1): An emerging pharmacotherapeutic target?

Katrine Melby: Intranasal oxytocin on alcohol withdrawal, craving and relapse: Experiences from a double blind RCT

Antonio Verdejo-García: Closing remarks

**SYP11:** *Christos Kouimtsidis*

**PPIG - Trauma, PTSD and Substance Use Disorders**

Tzeferakos Georgios - Early trauma experienced by People Who Use Drugs and the relationship with quality of life and severity of addiction.

Kathleen Brady - Trauma-informed SUD care.

Paola Rosca - Screening and early interventions for mental health, trauma and PTSD in reception centres for refugees and migrants.

Pompidou Group of Council of Europe: Drugs Facilitated Sexual Assaults: a gender-based violence challenge.

**SYP12:** *Gregory Bunt*

**The Fentanyl crisis: lessons from north america and eastern europe**

Pouya Azar - Canada's Response to the Fentanyl Crisis

Darius Jokubonis - Lithuania's Response to the Fentanyl Crisis

John Mariani - Medication Assisted Treatment with Fentanyl Use

Gregory Bunt - Clinical Challenges with Fentanyl for Treatment Programs

Carol J. Weiss - Global Significance and Implications of the Fentanyl Epidemic

**SYP 13:** *Ebiti N.W.*

**Assessing Complex Challenges to Effective Prevention Treatment and Policy Response to the Methamphetamine use surge in Nigeria**

Ebiti N.W<sup>1</sup>., Ike J.O<sup>2</sup>., James B.O<sup>3</sup>

Challenges to Demand Reduction Strategies (Prevention, Sensitization and Advocacy) in response to Methamphetamine Use Surge in Nigeria

Evolution of Supply Reduction Policies and Strategies in response to Methamphetamine Use Surge in Nigeria

Epidemiology and Treatment considerations in the Management of Methamphetamine Use disorders in Nigeria

**Treatment for opioids**

Karin Merethe Waleur - Post-treatment efficacy of extended-release naltrexone (XR-NTX) regarding sustained opioid abstinence and continued psychosocial recovery process

Ida Halvorsen Brenna - Treatment outcomes among patients with opioid use disorder choosing extended-release naltrexone in a naturalistic study setting in Norway.

Kristin Klemmetsby Solli- Changes in anxiety, depression and insomnia in opioid-dependent individuals during a 3-year treatment study with extended-release naltrexone.

Anne Marciuch - A qualitative study of patients' experiences of continued treatment with extended-release naltrexone

## Day 2: Wednesday 5th October

**SYP15:** *Hossein Mohaddses Ardabili*

### **ISAM NExT**

#### **Should we choose the road less travelled? Challenges and opportunities in pursuing a career in addiction medicine**

Hossein Mohaddses Ardabili- Similar networks relating medical specialists and undergraduates: what we can learn?

Jenna Butner- How to grab global support and funding opportunities for the project?

Rohsan Bhad- The ISAM-NExT global project for undergraduate mentorships; foundations and future directions

Gianluca Bezzina- Why undergraduates? Challenges and opportunities of working dyads of post/undergraduates.

**SYP16:** *Marylin Clark*

### **Prescription Drugs**

Sarah Haines - Consumer experience of Prescription Drug Monitoring Programs (PDMP) in Victoria: Perspectives from people who use opioids to manage chronic pain.

Moses Camilleri- Management of non-medical use of prescription drugs

Rosalind Gittins- Exploring Over the Counter and Prescription Only Medication misuse in specialist treatment services during COVID-19

Rosalind Gittins- Examining the Landscape of Overdose Detection and Responder Alert Technologies

Jari Tiihonen - Real-world effectiveness of pharmacological treatments in methamphetamine/amphetamine use disorders in a nation-wide Swedish cohort of 13,965 patients

**SYP17:** *Siddharth Sarkar*

#### **Use of tramadol therapeutically for the treatment of opioid dependence: Rationale, Experience and Caveats**

Prabhu Dayal Rationale of clinical use of tramadol in opioid dependence

Siddharth Sarkar - Experiences of using tramadol for (extended) detoxification of patients with opioid dependence

Piyali Mandal- Caveats of using tramadol in patients with opioid dependence

**SYP18:** *Anna Maria Vella*

### **Problematic Use of the Internet**

Duncan Veneziani- Examining Attentional Bias to Unsolicited Sexual Stimuli and its Potential Association with Internet Pornography Use.

Melissa Mifsud- Exploring the reality of working with young persons experiencing Problematic Internet Use (PIU), who are followed by the Youth Services within the Directorate for Alternative Care (Children and Youth).

Matthew Bartolo- The impact of COVID-19 pandemic on pornography habits.

RaeHyuck Lee- COVID-19-induced Economic Deterioration and Smartphone Overdependence among Adolescents in Single-parent Families in South Korea

**SYP19:** *Marc Potenza*

### **BIG Behavioral Addictions in a Changing International World**

Marc Potenza: Screen media activity, problematic use of the internet, and mental health: Brain-behavior, developmental and pandemic-related considerations

Zsolt Demetrovics: International efforts to understand behavioural addictions

Yatan Pal Singh Balhara: Screen time among college students and its impact on physical activity and sleep pattern: During the pandemic and following resumption of on-campus educational activities

Tania Moretta: The influence of conditioned social media-related cues on individuals with problematic use of social media

**SYP 20:** *Susanna Galea Singer*

### **ISAM EDUCATION COMMITTEE**

#### **Are Addiction specialists fit for the future? Equipping addiction specialists for the era of Artificial Intelligence and Machine Learning**

David Kulp - The ethics of utilizing AI & ML in addiction treatment

Susanna Galea-Singer - Applying AI and ML in Addiction Treatment: Review of the literature

Alex Baldacchino - What could the future like? How can organizations support the integration of digitalization in addiction education and training and addiction treatment

Michal Miovsky- The challenge presented by AI & ML for addiction training and education

**SYP 21:** *Christos Kouimtsidis*

### **Treatment for opioids 2**

Lars Tanum- Psychosocial characteristics of opioid dependent individuals in Norway seeking treatment with extended release naltrexone instead of opioid agonists.

Farid Juya- COMT and OPRM1 genotype variation among patients with opioid dependence in Norway: Prevalence and relation to pain intensity.

Gabriel Bastien- The impact of depressive symptoms on methadone and buprenorphine/naloxone outcomes in people with prescription opioid use disorder: results from a pragmatic randomized controlled trial

**SYP22:** *Anikita Chattopadhyay*

### **The Cannabis Debate: Background, current status and implications of recent changes in scheduling**

Ankita Chattopadhyay - The cannabis debate: Introduction- Ankita Chattopadhyay.

Tanmay Joshi - Beneficial effects of cannabis and medicinal cannabis

Tanmay Joshi - Adverse effects, dependence, dual diagnosis

Kamini Verma - Status of cannabis worldwide: Medical use, decriminalisation, legalisation-

Ankita Chattopadhyay- Scheduling process and implications of rescheduling of cannabis.

**SYP23:** *Brian Hurley*

### **SSIG - Advancing Recovery for People with Addiction Throughout the Healthcare System**

Brian Hurley : Treatment gap Integrating Addiction Treatment into Primary Care, Mental Health Care, Hospital Care, and into Care Settings for People Who are Incarcerated

Gregory Bunt: Integration of Primary Medical and Behavioral Health Care in the Treatment of Addictive Disorders: An International Perspective

William F. Haning : Advancing Recovery through Psychotherapy and Non-Medication Support for People with Addiction

Kathleen Brady: Moderator of Addiction Treatment Throughout the Healthcare System

**SYP24:** *Shalini Arunogiri*

**ISAM Training Committee - Stigma, advocacy and training in addiction medicine**

Leendert van Rijn, Raisa Thybaut: Addiction: an old (un) acquaintance. Three case studies to start a broader discussion on the effect of stigma.

Lucas Pintxen: Relationship between the addiction professionals' Training Needs and Attitudes

Barbara Broers: Double stigma: how to address substance use in people with intellectual disabilities?

Cornelis de Jong: Stigma in women who have children while in OMT

Shalini Arunogiri: Rethink Addiction: advocacy efforts through an Australian national anti-stigma campaign

**SYP25:** *Christos Kouimtsidis*

**PPIG- Civil Society Participation and Policy development implementation and evaluation**

Atul Ambekar - Challenges in the meaningful involvement of civil society in drug policies

Katrin Schiffer - The Right to sit at the Table - Meaningful Civil Society Involvement in the area of Drug Policy

Alexis Goosdeel- The EMCDDA experience and model of collaborating with Civil Society

Susanna Galea-Singer - Participation of civil society; a clinician's perspective across different countries

**SYP 26:** *Victoria Manning*

**NIG - Neuroscience-informed Behavioural Interventions**

Victoria Manning - Smartphone-delivered personalised Approach Bias Modification to reduce harmful alcohol use in the community

Eric Garland - Mindfulness-Oriented Recovery Enhancement Remediate Hedonic Dysregulation in Opioid Misuse and Addiction

Parnian Rafei - Neuroscience-informed Addiction Prevention: An RDoC based Framework

Brian Kiluk- Digital cognitive-behavioural interventions for substance use

**SYP 27: *Gregory Bunt***

**Treatment for the addictions: distinguishing effective treatment from substandard care - an international perspective**

Anja Busse - International Standards of Drug Use Treatment

Marc Galanter: The Role of Twelve Step Programs as Resources for Substance Use Disorder Recovery

Donald Kurth: A live illustration of the conduct of the experience of typical Twelve Step group meetings to be presented by members of ISAM

Gregory Bunt : Structure of a treatment system employing Twelve Step programs for forensic clients

Haynes IF- Using Peer Support Specialists in a Randomized Clinical Trial of Opioid Overdose Risk Reduction: Challenges and Opportunities.

Garrett McGovern - Ireland's First Medically Supervised injecting centre - NIMBY or lack of political will?

**SYP 28 - *Moses Camilleri***

**Alcohol use disorder**

Anna Powell- Recovery of cognitive function following abstinence from alcohol in individuals diagnosed with an Alcohol Use Disorder, as assessed by vibrotactile perception

Anna Powell - Recovery of neuropsychological function following abstinence from alcohol in individuals diagnosed with an Alcohol Use Disorder: systematic review of longitudinal studies among adults

Anna Powell- Young, drunk, and fast: the paradoxical effects of hazardous drinking on cognitive performance in younger adults

Olena Zhabenko - Understanding recovering alcohol dependent patients response to insomnia

Prabhoo Dayal - Cognitive Functions in Early- Detoxified Alcohol-Dependent Inpatients and Their Association with Severity of Alcohol Dependence.

### Day 3: Thursday 6th October

#### *SYP29: Shilpa Nellikkal*

##### **A volunteer based undergraduate students' initiative to address the public health challenge of substance use in India**

Ojas Krishnani and Daniyaal Taheri - Harnessing social media and starting a helpline by medical students to help people decrease substance use and help create an environment that facilitates a substance free lifestyle

Divya Shrinivas - To evaluate the effectiveness of a brief intervention for substance use offered by medical students through a quit line

Nikita Chandak - Impact of a short role-play based online training of medical students on their Motivational Interviewing skills

Ayushi Dubey - A qualitative study to assess expectations, experience, and benefits among substance users of a helpline based brief intervention.

#### *SYP30: Gianluca Bezzina*

##### **Opioid and Methadone**

Matin Toulami - Recalling the Salient Frames of the Past to Picture the Future: A Pilot Study of Cue-Exposure Combined with Episodic Future Thinking (CIREF) Intervention on Craving in Opioid Users Receiving Methadone Maintenance.

Matthew Attard-An Economic Analysis for providing buprenorphine free of charge at SMOPU for 100 users.

Abdulmalik Arab- Examination of Drug-Related Deaths in Scotland - Impact of Opioid and Other Drugs on Cardiovascular Disease Pathology

Annabel Mead - Youth and the opioid overdose crises in Canada

#### *SYP31: Joe Tay Wee Teck*

##### **PPIG - Telemedicine Mediated Medication Assisted Treatment: 48 months later**

Shalini Arunogiri : Setting the scene for telemedicine implementation during a pandemic: A personal reflection.

Joe Tay Wee Teck: Applying an Implementation Science lens to the Telemedicine Mediated Medication Assisted Treatment evidence base.

Heidi Dritschel: Using Normalisation Process Theory to compare international implementation experiences of Telemedicine Mediated Medication Assisted Treatment

Dr Jenna Butner: Telemedicine Mediated Medication Assisted Treatment through the lens of health equity: Experiences from the US

Susanna Galea-Singer- Incorporating patient perspectives, lived and living experiences into TMAT services design.

**SYP32:** *Hamed Ekhtiari*

### **NIG Technological Advances in addiction treatment**

Hamed Ekhtiari -Neuromodulation Strategies for Addiction Treatment

Salvatore Campanella -The utility of cognitive ERPs in the management of alcohol use disorder

Robert Leeman -Digital Technologies for Secondary Prevention of Addictive Behaviors

Antonio Verdejo-Garcia - Digital Technologies for Individualized

**SYP33:** *Shalini Arunogiri*

### **ISAM Training Committee**

#### **Train-ee Spotting: Addiction training, workforce mapping and future-proofing in Australia and New Zealand**

Enrico Cementon and Vicky Phan: Addiction psychiatry training in Australia and New Zealand - past, present, future

Nicholas Lintzeris: Background and context: addiction physician training

Hester Wilson: Background and context: General practitioners training in addiction medicine

Nicholas Lintzeris, Hester Wilson and Shalini Arunogiri: Where have all the trainees gone? Results of a workforce mapping survey across addiction medicine and discussion of workforce planning priorities

**SYP 34 - Anja Busse**

#### **Promising perspectives for pharmacological treatment of stimulant use disorders - Safety and effectiveness studies in community-based settings**

Anja Busse, Global trends of stimulant use and stimulant use disorders - The need for effective and scalable treatments for stimulant use disorders

Vitor Tardelli & Thiago Fidalgo, Current state of evidence for agonist-based treatment for stimulants  
- Time to implement medical treatment?

Peter Blanken, The potential efficacy of sustained-release dexamphetamine to reduce (crack) cocaine use and improve health in people with cocaine use disorder in agonist maintenance treatment for their comorbid opioid use disorder – Randomised controlled trials in the Netherlands.

Nadine Ezard, Safety and tolerability of oral lisdexamfetamine in adults with methamphetamine dependence

Anja Busse, What next? Future directions for effectiveness and safety trials for agonist-treatments for stimulant dependence

**SYP 35-** *Anna Maria Vella*

### **Stigma and Barriers, SUD and Motherhood**

Madaline Walsh - Pregnancy and Parenting as a Motivator for Change in the Treatment of Substance Use Disorder - A Review of New York City's Young Mothers Program.

Anna Maria Vella- Mothers with a Substance Use Disorder

Patricia Cavazos-Rehg - Evaluating a digital intervention to help the recovery of pregnant and postpartum women (PPW) with opioid use disorder (OUD).

Stephanie Dimech The lived experience of children in Malta whose parents use substances.

Kamini Aims Perceived stigma in female opioid users and their family members: A cross sectional comparative study

Steve Libreri Internal evaluation of bias displayed by CP professionals when dealing with cases presenting substance misuse

**SYP36:** *Christos Kouintsidis*

### **PPIG - Evaluation of treatment innovations necessitated by COVID -19 pandemic; importance and good examples.**

Bernadette Pauly; Managed Alcohol Programs: Evolution and Evidence in a Canadian Context.

Stelios Gkiouzepas - The impact of Covid-19 Pandemic on the everyday life of ARGO Therapeutic Program for Drug-Addicted Individuals.

Roshan Bhad and colleagues, - Opioid addiction treatment services during COVID 19 pandemic

Joe Tay Wee Teck - What happens when you don't have to say no? The impact of removing barriers to addiction treatment during the pandemic in Scotland.

**SYP37:** *Shalini Arunogiri*

**ISAM Oceania Affiliate Societies - Real time prescription monitoring in action: reflections from Australia**

Shalini Arunogiri - Setting the scene: an overview of implementation of RTPM in Australia

Dan Lubman - Computer says no: Challenging stigma in clinical practice and supporting prescribers

Suzanne Nielsen - Unintended consequences of RTPM

**SYP38:** *Jag Khalsa*

**Cannabinoids for Pain Management + Cannabis related research**

Jag Khalsa: Current Clinical Research on Cannabinoids as Medicine and for the Clinical Management of Pain and Substance Use Disorders.

Gregory Bunt - The Role of Addiction Psychiatrist in Medicinal Cannabinoids

Stephanie Coronado-Montoya- Giving young adults with psychosis voice and choice in cannabis interventions research by using discrete choice experiments: the SPICE study.

Nicholas.Lintzeris - What is the role for medicinal cannabis products in the treatment of cannabis use disorder?

Jag Khalsa :Cannabinoids for Pain Management

**SYP39:** *Nicholas Lintzeris*

**Long acting depot buprenorphine (LADB): addressing the next set of clinical research challenge**

Antti Mikkonen and Nicholas Lintzeris - How can I transfer from methadone to LADB?

Nicholas Lintzeris - Pain outcomes in patients treated with LADB.

Bernadette Hard - LADB seems to work well in 'stable' patients, but does it work in 'unstable' patients?

Michelle Lofwall - Is LADB safe in pregnancy? "Will my baby get withdrawal?"

Victoria Hayes "What can I expect to experience when I stop LADB treatment?"

**SYP 40:** *Jareth Grima*

**Prevention**

Jareth Grima - Substance Misuse Prevention Programmes: The Maltese Context.

Jareth Grima - A Substance Misuse Policy in the Workplace: Senior Leadership Teams' Attitudes

Jareth Grima - The Role of Workplace Policy in Addressing Employees' Substance Misuse Difficulties

**SYP 41:** *Joe Tonna*

**Gambling**

Oliver Simon - Challenges of a framework for monitoring gambling-related harm-reduction policies: the example of Switzerland

Kelly Ridley - Win Big Fast?

Michael Schaub- Effectiveness of a web-based self-help tool to reduce problem gambling: A randomized controlled trial

**SYP42 :** *Susanna Galea - Singer*

**Education and Research**

Hoang Huy Vu - Research to Practice: Strategies to get the science into the education (addiction studies courses) and to practice

Cary L Hopkins Eyles, - Developing an addictions program and research center: Implementation support.

Kevin P. Mulvey - What is ICUDDR? Meet your International Consortium of Universities for Drug Demand Reduction.

## Day 4: Friday 7th October

### SYP43: *Joe Tay Wee Teck*

#### **PPIG - The role of Digital Health Interventions (DHI) in Addiction Services**

Alberto Oteo Perez<sup>1</sup>: A systematic review of Overdose Detection and Alert Technology.

Mrs Roz Gittens<sup>2</sup>: A functional typology of Overdose Detection and Alert Technology

Marica Ferri<sup>3</sup>: Developing a functional taxonomy for Digital Health Interventions in Addiction Services

Joe Tay Wee Teck<sup>1</sup> (TBC): Applying typologies & taxonomies- case studies from the ODART and DADE projects

### SYP44: *Atul Ambekar*

#### **ISAM Asian Affiliated societies**

#### **Treatment for Opioid use disorders in South and Southeast Asia: An update**

Atul Ambekar - The characteristics of opioid use epidemic in South and Southeast Asia

Helal Uddin Ahmed -Opioid Agonist Treatment in Bangladesh: An update

Ravindra Rao - Opioid Agonist Treatment in India: Initial experience with mobile Methadone Van.

Nanda Myo Aung Wan -Opioid Agonist Treatment in Myanmar: An update

Saroj Prasad Ojha - Opioid Agonist Treatment in Nepal: An update

Chalawat Inpa Opioid Agonist Treatment in Thailand: An update

### SYP45: *Alberto Oteo*

#### **Spanish Symposium:**

#### **Research in therapeutic contexts using health technologies**

Alberto Oteo - Overdose Alert and Response Technologies. A cutting-edge review (*Overdose Alert and Response Technologies -ODART*)

Schifani, Carolina - Reminders to increase adherence in a multicomponent outpatient treatment.

Roldán, Mariela - Pharmacological adherence and perceived usefulness of reminders for adherence to psychopharmacological treatment in patients with addictive disorders.

Gigena Parker - One-year evaluation of the implementation of the APPAGA program (virtual reality modality) for smoking cessation in Córdoba, Argentina.

**SYP46:** *Mario Miccoli*

### **Assessing Heroin Use Disorder patients**

Andrea Poli - Subtyping Patients With Heroin Addiction At Treatment

Lorenzo Tumminello - The TALS – Reduced Form: An Inventory For Assessing The Heroin Post-Traumatic Stress Disorder Spectrum (H/PTSD-S)

Fillipo Della Rocca - An Inventory For Assessing The Behavioural Covariates Of Craving In Heroin Use Disorder Patients

**SYP47:** *Ravindra Rao*

### **Substance use in Indian Prisons: Magnitude of the problem and solutions**

Preethy Kathiresan: The crossroads of substance use and prisons

Ravindra Rao: Are Indian prisons immune from substance use?: Findings from a nationwide survey.

Atul Ambekar: Substance use in Indian prisons: what can be done?

**SYP 48:** *Christos Kouimtsidis*

### **Addiction and Mental Health**

Jeyaniroshan Jeyapalan - Characteristics of incident substance-induced psychosis compared to incident first-episode psychosis. A nationwide register-linkage study.

Isack c. Rugemalila - Substance use and clinical outcome of first- episode psychosis in covid-19 pandemic at mirembe mental health hospital in dodoma, tanzania: a study protocol for a longitudinal study.

Timothy D. Brewerton - Food addiction and comorbidity: a review.

Jane E. Joseph - Oxytocin attenuates brain response and connectivity in implicit emotion face processing in cocaine use disorder
