

Dr. Kathleen T. Brady (USA) M.D., Ph.D.

Distinguished University Professor, Vice President for Research, Medical University of South Carolina

Dr. Brady is an experienced clinical and translational researcher and has been conducting scientific investigations and clinical work in the field of addictions and psychiatric disorders for over 30 years. Her research focuses on pharmacotherapy of substance use disorders, comorbidity of psychiatric disorders and addictions (e.g., posttraumatic stress disorder and bipolar disorder), gender differences and women's issues in addictions, and the neurobiologic connections between stress and addictions. She has received numerous federal research grants and has published over 300 peer-reviewed journal articles and co-edited 10 books. She is the principal Investigator of MUSC's Clinical and Translational Science Award (CTSA), Principal Investigator of the Southern Consortium Node of the NIDA-funded Clinical Trials Network and Director of MUSC's Women's Research Center. Her dedication to furthering research careers has attracted a number of junior investigators and clinicians. She has mentored over 25 individual NIH-funded faculty development awards (K-awards) and is presently involved in three institutional faculty development programs (CTSA KL2; BIRCWH, NIDA K-12). She has been the Co-Director of MUSC's NIH-funded post-doctoral fellowship program focused on translational research training in addictions for 15 years.
